

Karibu Welcome

'Fuel from Waste' officially open

Asante – Thank you

Why are we here?

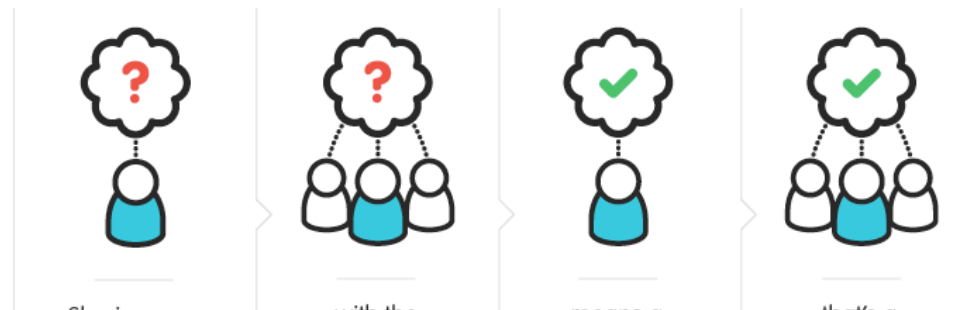

To form a network

To share expertise

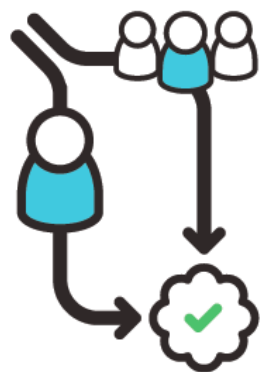

To build capacity

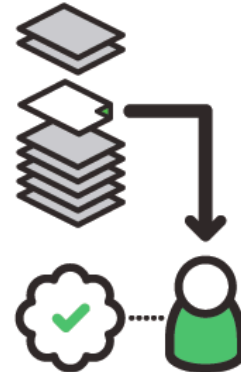

MadeGood. beta

Middlesex University

To raise the profile of
briquetting in Nairobi...

To develop a 'roadmap'

A plan for the future

Why are we here?

- To form a network
- To share expertise
- To develop a 'roadmap'
- To build capacity
- To raise the profile of briquetting in Nairobi...

A plan for the future

Not just about today – about what comes afterwards... a shared vision, practical, sustainable

How are we going to do that?

<i>Day 1 – More ‘technical’ day – co-creation</i>	
10.00	Speakers
11.00	Storytelling, demonstrations and making briquettes
13.00	Lunch
14.00	Co-Design – ‘Story Weaving’
16.00	Themes and outcomes – what do they mean?
16.30	How does the plan look?
17.00	End.

An unConference?

An exhibition?

We think of this as:

Active – Meet – Share - Create

A creative festival
